

**We continue to receive reports of bonfires being lit across the District.**

**Please do not set fire to your waste.**

**Many people are currently self-isolating at their homes and cannot escape the smoke produced by these fires. Some will already be struggling with respiratory symptoms. Please do not make things worse for them.**

**Please store your waste for now, pending the recommencement of green waste collections and the re-opening of Waste Recycling Centres.**

**Please do your bit to help the situation and do not burn waste.**
